Contents volume 26

Volume 26. No. 1 (July 2000)

I. Gilad, S. Harel
Muscular effort in four keyboard designs 1
M. Stål, G.-Å. Hansson, U. Moritz
Upper extremity muscular load during machine milking 9
M. Vasu, A. Mital
Evaluation of the validity of anthropometric design assumptions 19
A.M. de Jong, P. Vink
The adoption of technological innovations for glaziers; evaluation of a participatory ergonomics approach 39
J.P. Meyer, B. Lodde, G. Didry, F. Horwat
Cardiorespiratory and subjective strains during actuation of large hand wheels 47
A.J. Clapp, P.A. Bishop, J.F. Smith, T.R. Bauman
Palatability ratings of different beverages of heat exposed workers in a simulated hot industrial environment 57
P. Ray
An innovative approach of risk planning for space programs 67
S. Salminen
Traffic accidents during work and work commuting 75
F.-J. Yu, S.-L. Hwang, Y.-H. Huang, J.-S. Lee
Application of human error criticality analysis for improving the initiator assembly process 87
Y.-L. Chen
Accuracy and repeatability of the stick marker technique for external measurement of the sacral angle during trunk flexion (IJIE 99-27) 101
Y.-L. Hsu, C.-Y. Tai, T.-C. Chen
Improving thermal properties of industrial safety helmets 109

Volume 26. No. 2 (August 2000)

A.K. Gramopadhye, C.G. Drury
Editorial 125
K.A. Latorella, P.V. Prabhu
A review of human error in aviation maintenance and inspection 133
C.G. Drury, S.C. Patel, P.V. Prabhu
Relative advantage of portable computer-based workcards for aircraft inspection 163
C.A. Wenner, C.G. Drury
Analyzing human error in aircraft ground damage incidents 177
J.C. Taylor
The evolution and effectiveness of Maintenance Resource Management (MRM) 201
J.C. Taylor
Reliability and validity of the Maintenance Resources Management/Technical Operations Questionnaire 217
P.A. Hastings, M. Merriken, W.B. Johnson
An analysis of the costs and benefits of a system for FAA safety inspections 231

Elsevier Science B.V.

D. Walter
Competency-based on-the-job training for aviation maintenance and inspection – a human factors approach 249
W. Rankin, R. Hibit, J. Allen, R. Sargent
Development and evaluation of the Maintenance Error Decision Aid (MEDA) process 261
B.J. Melloy, J.M. Harris, A.K. Gramopadhye
Predicting the accuracy of visual search performance in the structural inspection of aircraft 277
T.N. Chandler
Keeping current in a changing work environment: design issues in repurposing computer-based training for on-the-job training 285
M.R. Endsley, M.M. Robertson
Situation awareness in aircraft maintenance teams 301

News 327

Liberty Mutual Insurance Company Best Paper award 333

Volume 26. No. 3 (September 2000)

Special issue: Ergonomics in Australia
edited by Leon Straker
L. Straker
Preface 335
C. Harris, L. Straker
Survey of physical ergonomics issues associated with school childrens' use of laptop computers 337
C. Cook, R. Burgess-Limerick, S. Chang
The prevalence of neck and upper extremity musculoskeletal symptoms in computer mouse users 347
O. Evans, K. Patterson
Predictors of neck and shoulder pain in non-secretarial computer users 357
K. Mekhora, C.B. Liston, S. Nanthavanij, J.H. Cole
The effect of ergonomic intervention on discomfort in computer users with tension neck syndrome 367
R. Burgess-Limerick, B. Green
Using multiple case studies in ergonomics: an example of pointing device use 381
L. Straker, K. Mekhora
An evaluation of visual display unit placement by electromyography, posture, discomfort and preference 389
W. Macdonald, S. Bendak
Effects of workload level and 8- versus 12-h workday duration on test battery performance 399
S. Malcolm, R. Armstrong, M. Michaliades, R. Green
A thermal assessment of army wet weather jackets 417
N. Skepper, L. Straker, C. Pollock
A case study of the use of ergonomics information in a heavy engineering design process 425

News 437

Liberty Mutual Insurance Company Best Paper award 443

Volume 26. No. 4 (October, 2000)

E.S. Jung, Y. Shin, D. Kee
Generation of visual fields for ergonomic design and evaluation 445
E. Åhsberg, G. Kecklund, T. Åkerstedt, F. Gamberale
Shiftwork and different dimensions of fatigue 457
K.-H. Tang
Computer-based group training and prior achievement: effects on performance means and variances 467

S.H. Han, M.H. Yun, K.-J. Kim, J. Kwahk
Evaluation of product usability: development and validation of usability dimensions and design elements based on empirical models 477
S.J. Park, C.-B. Kim, C.J. Kim, J.W. Lee
Comfortable driving postures for Koreans 489

News 499

Liberty Mutual Insurance Company Best Paper award 503

Volume 26. No. 5 (November, 2000)

P. Kuijer, M. Frings-Dresen, M. de Looze, B. Visser, A. van der Beek
Work situation and physical workload of refuse collectors in three different time periods 509
D.L. van Deursen, L.L.J.M. van Deursen, C.J. Snijders, R.H.M. Goossens
Effect of continuous rotary seat pan movements on physiological oedema of the lower extremities during prolonged sitting 521
K.-K. Shieh, C.-C. Lin
Effects of screen type, ambient illumination, and color combination on VDT visual performance and subjective preference 527
M.-Y. Park, J.-Y. Kim, J.-H. Shin
Ergonomic design and evaluation of a new VDT workstation chair with keyboard–mouse support 537
B.-Y. Choi, S.-Y. Bang
Constraints on handwriting Korean characters to improve the machine readability 549
P.L. Parker, L.L. Crumpton-Young, K.M. Brandon
Does abdominal body composition modulate the effects of back belts on the respiratory system? 561
J. Abeysekera
Masters program in ergonomics at Luleå University of Technology, Sweden 569

Focus

J. Abeysekera
The 10th Anniversary Ergonomics Conference, 29–30 October, 1999 Luleå University of Technology, Sweden 571

News 573

Liberty Mutual Insurance Company Best Paper Award 559

Volume 26. No. 6 (December, 2000)

I.-J. Kim, R. Smith
Observation of the floor surface topography changes in pedestrian slip resistance measurements 581
G. Björing, G.M. Hägg
Musculoskeletal exposure of manual spray painting in the woodworking industry – an ergonomic study on painters . . . 603
W.-K. Chiou, W.-J. Chen, Y.-H. Lin, M.-K. Wong
The functional evaluation of a back belt rehabilitation for low-back pain patients 615
J.R. Potvin, J. Chiang, C. Mckean, A. Stephens
A psychophysical study to determine acceptable limits for repetitive hand impact severity during automotive trim installation 625
B. Griefahn, C. Künemund, U. Gehring
The significance of air velocity and turbulence intensity for responses to horizontal drafts in a constant air temperature of 23°C 639
